

DATA LOGGER

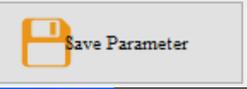

Elitech RC-5: Quick User Guide

To download and save data:

Step 1		Collect logger from the fridge and push PAUSE button on logger
Step 2		Connect logger to computer via USB
Step 3		Open program – Double click: ElitechLog icon
Step 4		Click: Download button
Step 5		Click: Graph button
Step 6		Click: Export Report button
Step 7		Select PDF option to save

To clear data and re-start logger for next use:

Step 1		Click: Parameter
Step 2		Click: Save Parameter
Step 3		Press and hold PLAY button on logger until a small arrow appears on the display screen
Step 4		Immediately return logger to the vaccine fridge

Elitech: Analyse data from PDF file

The SUMMARY:

File created on:2019-08-23 15:09:42

Data Report

Device Info

Model: RC-5	Log Interval:0:5:0	Start Time: 2019-08-12 17:17:37
Total Space: 32000	Press Button : Enable	Temperature Unit:°C
Storage Mode: --	Alarm Tone: --	
Button tone: --	Interval Shortened: --	

Trip Description

S/N: EFE18AD08122
Trip Description: RC-5 Data Logger

Alarm Settings

H1: 8.0°C
Ideal Zone:
L1: 2.0°C

Alarm Status

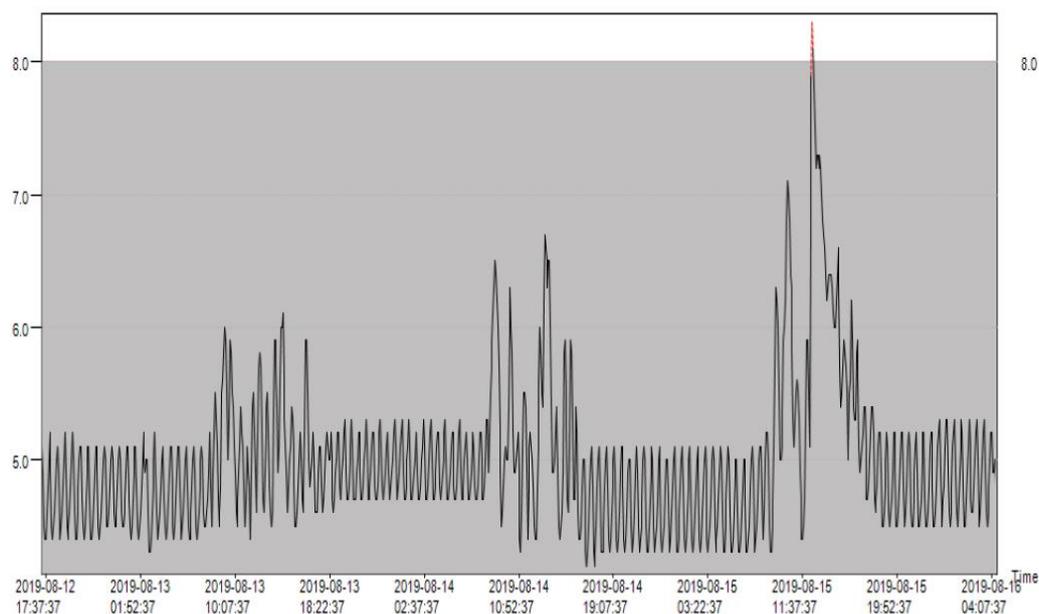

Alarm
Normal

Note the “Alarm Status”:

- “Normal” indicates that all temperatures were within 2°C – 8°C range
- “Alarm” indicates that temperatures were outside 2°C – 8°C range

The GRAPH:

Temperature°C ■ High Limit ■ Low Limit ■ Fault ■■■

The graph will be black where temperatures are within range. If temperatures go above 8°C, this will appear red on the graph, and temperatures below 2°C will appear blue on the graph.

All temperatures above 8°C and below 2°C require investigation:

- Any temperature **below 2°C** is unacceptable → contact PHU to report cold chain breach
- Temperatures between **8°C – 12°C** → check **duration** (see next section)
- Any temperature **above 12°C** is unacceptable → contact PHU to report cold chain breach

The DATA:

From 2019-08-14 19:17:37 to 2019-08-16 04:32:37

File created on: 2019-08-23 15:09:54

21:02:37	4.9		05:22:37	4.3		13:42:37	6.2		22:02:37	5.0							
21:07:37	5.1		05:27:37	4.3		13:47:37	6.3		22:07:37	5.2							
21:12:37	4.9		05:32:37	4.4		13:52:37	6.4		22:12:37	5.2							
21:17:37	4.5		05:37:37	4.6		13:57:37	6.4		22:17:37	4.7							
21:22:37	4.3		05:42:37	4.9		14:02:37	6.4		22:22:37	4.5							
21:27:37	4.4		05:47:37	5.0		14:07:37	6.4		22:27:37	4.5							

The data will be black where temperatures are within range. If temperatures go above 8°C, this will appear in **red** font, and temperatures below 2°C will appear in **blue** font.

This data can be used to check the **duration** that the temperatures were out of range:

- Temperatures **below 2°C** for any duration is unacceptable → contact PHU to report cold chain breach
- Temperatures **between 8–12°C** for less than 15 minutes are acceptable.
- Temperatures **between 8–12°C** for more than 15 minutes is unacceptable → contact PHU to report cold chain breach
- Temperatures **above 12°C** for any duration is unacceptable → contact PHU to report cold chain breach
