

General Practice Support

Central and Eastern Sydney PHN

Do you require support?

CESPHN's Practice Support and Development; Digital Health and Immunisation teams offer support to general practice and allied health practices within the CESPHN region. The teams provide up to date information and resources on specific and varied topics. We also offer a fantastic education program which will support your management within general practice including topics related to accreditation; quality improvement; digital health and immunisation.

Your practice has been given a key contact practice support person and a digital health officer. If you would like some support in any areas of practice management and / or programs you can contact via the following emails:

Practice Support: practicesupport@cesphn.com.au

Digital Health: digitalhealth@cesphn.com.au

Immunisation: immunisation@cesphn.com.au
