

Pen CAT Walk Throughs

How to find the COVID 19 data in Pen CAT

Difficulty Level: Beginner

For the latest information on COVID 19 see HealthPathways

[Sydney Healthpathways](#)

[SES Healthpathways](#)

Log into HealthPathways

Username: connected/ sesydney

Password: healthcare/ healthcare

Type “COVID 19” into the search window

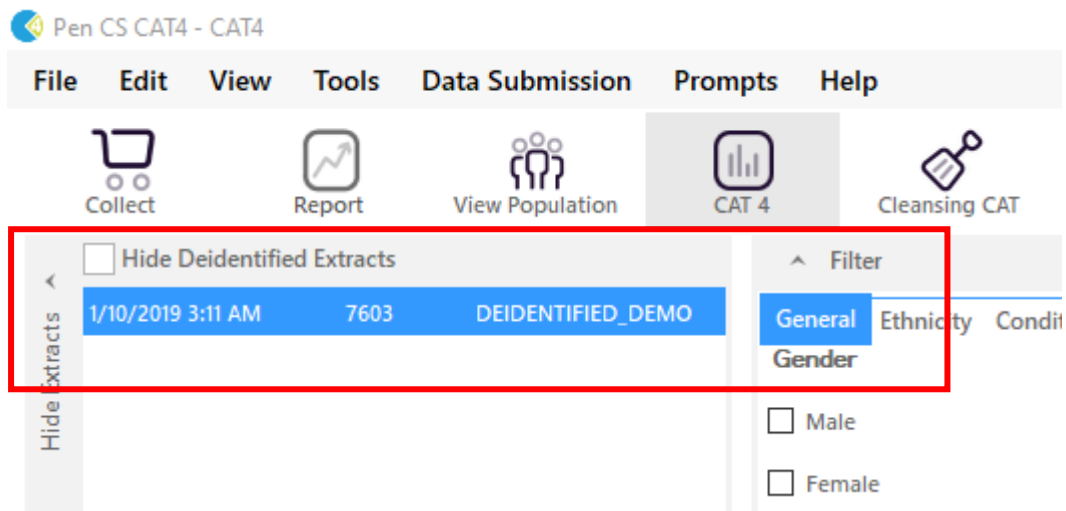

Click on “COVID 19” for additional information

For additional Pen CAT resources please click [here](#)

Log in to Cat4

Select your latest extract

Depending on your requirement you may want to select RACGP active from the General Filter, however in our example we have left all the filters blank

The screenshot shows the Cat4 software interface. At the top, there is a menu bar with options: File, Edit, View, Tools, Data Submission, Prompts, and Help. Below the menu bar are five icons: Collect (shopping cart), Report (line graph), View Population (group of people), CAT 4 (bar chart), and Cleansing CAT (brush). The 'CAT 4' icon is highlighted. Below the icons is a list of deidentified extracts. A red box highlights the first extract, which has a date of 1/10/2019 3:11 AM, a count of 7603, and the name DEIDENTIFIED_DEMO. To the right of the extract list is a 'Filter' section with a dropdown menu showing 'General' and 'Gender'. Below the dropdown are two checkboxes: 'Male' and 'Female', both of which are unchecked.
