10754NAT Course in Immunisation Practice in Primary Healthcare

The Course in Immunisation Practice in Primary Healthcare consists of six individual programs that make up the Immunisation learning pathway. The programs include:

- Foundations of Immunisation Practice
- Immunisation Needs in Adult and Older Persons
- Immunisation Needs for Influenza
- Immunisation Needs in Pregnancy
- School Age Immunisation
- Practice of Immunisation.

Course delivery and assessment includes online learning completed via accessIQ, a half-day face-to-face workshop, in-class activities assessed by a qualified assessor and a mandatory third party observed workplace activity

All workplace observed activities must be completed in accordance with workplace policies and procedures of the facility where the activity is being conducted.
