

PROSTATE CANCER SPECIALIST NURSING SERVICE

AN ESSENTIAL SERVICE FOR AUSTRALIAN
MEN AND FAMILIES

Patients rate the service as having the biggest impact on their health, wellbeing, confidence, and ability to navigate their health care.

(Deloitte Independent Evaluation, 2018)

We are incredibly grateful for the support we have received from our prostate cancer specialist nurse.”

Peter & Jocelyn (Queensland)

Expert care and support that no other organisation can provide

You can find PCFA Prostate Cancer Specialist Nurses in more than 80 locations nationwide.

When you talk to a Prostate Cancer Specialist Nurse, you discover how much there is to know about prostate cancer.

You realise that there are many possible treatment pathways – surgery, radiation, active surveillance – and a range of common side-effects that may last many years after treatment.

They provide a lifeline for the 1 in 5 men who experience anxiety and depression, and help partners and families to understand what life after prostate cancer will be like for the whole family.

medical appointments

Our nurses go above and beyond

- Expert nursing care during diagnosis, treatment, and recovery.
- Care and support for partners and family members.
- Assistance with side-effects, such as erectile dysfunction and incontinence.
- Support in the days, weeks, and months after treatment, when side-effects may linger.

Your support keeps our nurses going

\$30

can cover the cost of sending a Survivorship Kit to a newly diagnosed man.

\$125

can cover the cost of the patient's first consultation with a Specialist Nurse.

\$1,200

can cover the cost of caring for one patient in the week after his treatment.

\$145K

can cover the cost of a Specialist Nurse for one year.

Donating to our Prostate Cancer Specialist Nursing Service is one of the best ways your company can make a difference for Australian men and families impacted by prostate cancer.
