

# QI TEMPLATE

## Record of immunisation QI activity

PIP QI quarter: <i>please tick</i> ✓	Quarter 1	Quarter 2	Quarter 3	Quarter 4
<b>Date:</b>	<i>Nov – Jan</i> <input type="checkbox"/>	<i>Feb – Apr</i> <input type="checkbox"/>	<i>May – Jul</i> <input type="checkbox"/>	<i>Aug – Oct</i> <input type="checkbox"/>
<b>QI Activity: GoShare</b>	COVID-19 vaccination recall program for adults aged 75+ years via <a href="#">GoShare free patient recall initiative</a> .			
<b>Activity goal:</b> <i>What to improve and timeframe</i>	To increase the uptake of COVID-19 vaccination in patients aged 75+ years within 3 months.			
<b>Activity measures:</b> <i>What data is used to monitor progress</i>	Use data extraction tool* to measure the number of active patients aged 75+ years who have not received a COVID-19 booster within the last 6 months before the activity and rerun the report monthly to monitor progress.			
<b>Initial benchmark:</b> <i>Baseline data prior to QI activity</i>	Our data shows we currently have _____ number of patients aged 75+ years due for their 6 monthly COVID-19 booster.			
<b>Activity overview:</b> <i>Action plan to drive improvement</i>	<ol style="list-style-type: none"> <li>1. <a href="#">Register to participate</a> in GoShare patient recall program.</li> <li>2. GoShare support will help to create a list of eligible patients and send the recall SMS bundle out.</li> <li>3. Order COVID-19 vaccines from the <a href="#">CVAS portal</a>. If required stock exceed ordering limits, contact Vaccine Operations Centre (VOC) on 1800 318 208 to request additional stock.</li> <li>4. Discuss at staff meetings.</li> <li>5. Patients interested in COVID-19 vaccination will contact the practice. Check AIR record to confirm the patient hasn't already received COVID-19 vaccine within the last 6 months prior to booking appointment.</li> <li>6. GoShare support will help to review data monthly to track progress.</li> </ol>			
<b>30-day checkpoint:</b> <i>Monitor progress at 30 days</i>				
<b>Final 60-day checkpoint:</b> <i>Results at 60 days – summarise improvement from baseline</i>				
<b>Reflection:</b> <i>Reflect on achievements, challenges and lessons</i>				

\*Data extraction tools include: PenCAT, POLAR, clinical software reports, etc
