My Health Record for Aged Care

How Leecare uses My Health Record to enhance resident care

Healthy North Coast (North Coast PHN) invites managers and nursing staff working in residential aged care homes and primary care clinicians across NSW and the ACT, to a webinar that will provide an overview of the My Health Record system, key information it contains, benefits of use and how aged care health providers, residents and their representatives can use and manage their records.

Come join us Friday, 23 May 2025 at 1pm - 2pm and learn how you can view a resident's My Health Record information from within Leecare, including Advanced Care Planning, prescription records and dispense records.

This session is part of a webinar series, future webinars are planned to cover viewing in and uploading information to the My Health Record using other Residential Aged Care clinical software.

This series is a joint collaboration between Central & Eastern Sydney, Capital Health Network, Healthy North Coast (NNSW), Hunter New England & Central Coast, Nepean Blue Mountains, Northern Sydney, South Eastern NSW (Coordinaire), South Western Sydney and Western Sydney (Went West) PHNs.
