

Activity 2.1 – Data collection from clinical software

To search for the number of active patients with dementia and a completed advance health directive:

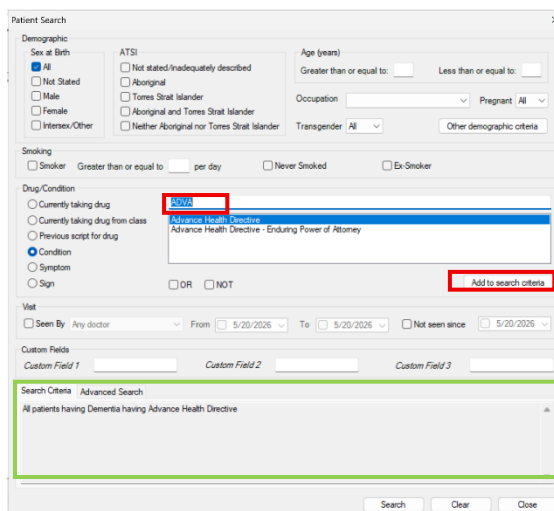

1. On the top bar, click on ‘Search’ then ‘patient’.

2. The following box will appear. Click on ‘Condition’ and enter ‘Dementia’ in the textbox. Then click ‘Add to search criteria’. The ‘Search Criteria’ box at the bottom displays the query you are building (in green).

3. Type in ‘Advance Health Directive’ in the text box and click ‘Add to search criteria’. This will now display in the ‘Search Criteria’ box (seen in green).

4. Click 'Search' and your list of dementia patients with an Advance Health Directive will appear.
