

GLAD Program

GP Liaison in Alcohol and other Drugs

*Delivery of a shared care project to assist general practice
and specialist AOD services to work together*

How GLAD supports you:

- ✓ Assists public Alcohol & Other Drugs Services to work collaboratively with primary health care providers
- ✓ Improving professional relationships between specialist services and primary health care providers
- ✓ Improve the health and wellbeing of our community

Support and advice for primary health care providers, and their patients is available Monday to Friday:

- Phone advice
- Assessments and treatment plans
- Collaborative / shared care
- Referral pathways
- Education for GPs, Practice Nurses and patients
- Practice visits
