

St George Hospital Adult Community Mental Health Service

L1/15 Kensington Street, Kogarah, NSW 2217
Tel: (02) 9553 2500 Fax: (02) 9553 2525

We're the GP Shared Care Team at St George Community Mental Health, three Clinical Nurse Consultants dedicated to supporting the physical health outcomes of people living with complex mental illness. In partnership with Central and Eastern Sydney PHN, our program strengthens partnerships between GPs and mental health services to deliver holistic, preventative care. We provide care to any of your consumers receiving care coordination from St George Community Mental health by:

- Supporting annual physical health checks and metabolic monitoring
- Linking them with specialists and local health services
- Enhancing communication between your practice and our care coordinators
- Supporting consumers to discuss physical health needs with their GP

We work closely with GP practices to ensure smooth transitions to primary care and facilitate clear communication between care coordinators at St George Community Mental Health and GPs involved in the Shared Care program.

We understand the challenges your patients face and will work alongside you to improve mental health and physical health outcomes through coordinated, person-centred care.
