# GP SHARE CARE PARTNERSHIP

## We're here to support you and your patients

A collaborative program between local GPs and St Vincent's Hospital Sydney Community Mental Health Team (CMHT) to support people with severe and enduring mental illness.

The GP Share Care Partnership Program is here to support you.

My role is to work in partnership with local general practitioners within the St Vincent's catchment area. The aim is to support coordinated clinical care for people with severe and enduring mental illness as they transition between primary and secondary care.

Offering psychiatry assessments every 6 to 12 months

## HOW I CAN SUPPORT YOU AND YOUR PRACTICE

**Support, educate and collaborate**

I provide ongoing support, education and collaboration to help you feel confident and supported when caring for your mental health clients.

**Strengthen connections**

I strengthen direct links between you and the St Vincent's Community Mental Health Team (CMHT).

**Coordinate care seamlessly**

I support coordinated care for your patients as they transition between primary and secondary care.

**Access to services and partnerships**

I assist in developing and maintaining partnerships across a range of government and non-government services and agencies you may not otherwise be familiar with.

**Consultation, advice and information**

I am available to provide consultation, advice and information regarding health care where appropriate.

**Address inequities together**

I support efforts to address the physical and mental health inequities experienced by people with severe and enduring mental illness.

**Let's work together for better outcomes**

By working together, we can improve the physical and mental health of your patients and support their recovery and wellbeing in the community.

**Let's connect**

I'm here to support you and your practice. Please reach out to discuss how the GP Share Care Partnership Program can support you.
