Other Program Key Priority Area Description

After Hours

Aim of Activity *

To increase access to after-hours primary health care services for priority groups.

Description of Activity *

Outreach primary health care will be provided to at risk populations, focusing on supporting individuals experiencing or at risk of experiencing homelessness. Services provided will include but are not limited to:

- outreach health clinics and mobile outreach
- patient/client management
- care co-ordination and client triage
- telehealth services
- patient service navigation
- referral pathway and network development.

Activity Consultation and Collaboration

Consultation

SESLHD, SLHD, SVHN, homelessness specialist organisations and Aboriginal and Torres Strait Islander leadership at SVHN.

Collaboration

SVHN department (ED, Acute Care Team and Homeless Health Team) support delivery of service navigation and care co-ordination. SESLHD Kirkton Road Centre (KRC) and SVHN work in partnership with homelessness services to determine outreach locations and deliver outreach health care. SVHN and KRC also refer and work in partnerships with local GPs, health services and social services to provide holistic care to patients.

Other Program Key Priority Area Description

After Hours

Aim of Activity *

Support access of older people to primary health care in the after-hours period and reduce preventable hospital admissions.

Description of Activity *

Funding will sustain workforce and hours of extended service delivery of primary health care by the aged care outreach teams located within SESLHD and SLHD, operating out of Sutherland Hospital, Prince of Wales, War Memorial, St George Hospital and Concord Hospital.

The commissioned services work with RACFs and RACF staff within the region to identify areas of education and training, develop partnerships and pathways to ensure awareness and appropriate delivery of the outreach services as well as advise on the effectiveness of the service.

These services will increase the capacity of RACFs to provide care to residents within their facilities, assist in the continued education and upskilling of staff in primary care provision, and promote collaborative care for older persons with primary health providers such as GPs.

For persons in the community the service provides clinical care within the context of the home as well as establishes care plans to support health needs of the patient in the after-hours period in partnership with available health providers.

Activity Consultation and Collaboration

Consultation

SESLHD, SLHD, RACFs, RACF staff, NSW Ambulance, GFS and CESP HN After Hours Advisory Committee.

Collaboration

The GFS/aged care outreach work to support RACFs and older persons in the community. RACFs engage with GFS to receive clinical education and improve quality of care provided to residents, additional local GPs and health are also engaged in collaboration to provide best practice care.

The After Hours Advisory Committee consults on the program as needed.

After Hours

Aim of Activity *

Increase awareness and access of after-hours services available within the CESP HN region to reduce preventable ED presentation in the after-hours period.

Description of Activity *

Promoting and marketing of after-hours services to the community by:

- creation and distribution of after-hours resources in collaboration with stakeholders.
- service mapping of available after-hours services.
- education to health care providers around incentives offered by the government to providers of after-hours care.
- work with stakeholders, including but not limited to hospitals, LHDs, GPs, pharmacists, allied health professionals and community outreach services to raise awareness and provide community education around after-hours options focusing on populations who frequently present to ED with low urgency needs.
- support a strategy to increase access to primary care supports for people who require a police or ambulance response to reduce preventable ED presentation in the after-hours period.
- support service navigation and access to primary care mental health services to reduce preventable ED presentations in the after-hours period for mental health concerns.

Activity Consultation and Collaboration

Consultation

Consumer groups (i.e., culturally and linguistically diverse community groups), SESLHD, SLHD, SVHN and SCHN staff, CESPHN After Hours Advisory Group, GPs and research institutions.

Collaboration

CESPHN After Hours Advisory Committee, SESLHD, SLHD, SVHN and SCHN will identify areas and populations who have frequent preventable presentations in ED, map after hours services within the region, and promote and distribute after hours resources. GPs will be engaged for consultation via several approaches including direct approach to GP members of CESPHN After Hours Advisory Committee, CESPHN Member Chairs, CESPHN Clinical Council and CESPHN Board and via invitation and survey through CESPHN newsletter and stakeholder information management system.
