# Test and cure hepatitis C in primary care

**Date:** Wednesday 7 June 2023

**Time:** 7:00pm – 9:00pm (AEST). Dinner is included.

**Venue:** Crowne Plaza Coogee, 242 Arden St, Coogee NSW 2034

This free interactive update provides practitioners in primary and related care settings with an overview of hepatitis C management, including case finding, testing, patient assessment and treatment.

This training is intended for: General practitioners, nurse practitioners, nurses and other primary care-based practitioners in SESLHD.

Local hepatitis C projects and services will be showcased, including Point-of-Care testing.

Presented by:

Dr Nada Andric, GP, Haymarket Foundation;

Samira Avdic, Clinical Nurse Consultant, Prince of Wales Hospital, Randwick.

## Learning Outcomes:

- Communicate confidently with patients about HCV testing and cure
- Describe screening and confirmatory tests used to diagnose HCV infection
- Outline the recommended hepatitis C pre-treatment assessments
- Discuss the antiviral therapy regimens for treatment of HCV and how to prescribe them
- Explain your role in testing and curing hepatitis C
